TABLE OF CONTENTS

PAGE NO.	DESCRIPTION OF ITEM
1	Methodology for Planning Information Reports
2-5	Directory of Texas Employment Commission Offices
	Projections of Population, Labor Force, and Unemployment, 1990:
6	Total - All Races and Anglo and Other Races
7	Black and Hispanic
	Labor Force Statistics, 1980 to Present:
8-12	Actual
13-17	Seasonally Adjusted
18-19	Covered Employment by 2-Digit Industry, 1987-1990
20	Graph - Percent Distribution of Employment by Industry Group
21	Average Weekly Wage in Covered Employment, 1988-1990 Averages
22-32	3-Digit Distribution of 2-Digit Industries, First Quarter 1990
33	Affirmative Action Table for Texas, July 1990
34	Characteristics of the Insured Unemployed - 1989-1990 Comparison
35-37	Characteristics of the Insured Unemployed, September 1990
38-44	Per Capita Income by County and for MSA's, 1987-1988
45	Updated 1990 Lower Living Standard Income Level
46	Poverty Population for 1990
47	Aid to Families with Dependent Children, 1990

METHODOLOGY FOR PLANNING INFORMATION

This report contains Annual Planning Information for Program Year 1991-1992.

Tables of Population and Labor Force Status by Age, Sex and Race are estimated for 1990. The population projections are from the Department of Rural Sociology of Texas A&M University. These projections by county have been aggregated into Service Delivery Areas. The estimates for 1990 which we used were from the middle scenario which assumes half the migration rate that took place during the 'Seventies. The labor force projections were generated by TEC. (*These are the same estimates which were included in the PY 1990 reports.*)

These projections are by sex, age, and race (ethnicity). We have used three breakouts: Anglo and Other, Black, and Hispanic. Although we realize that "Hispanic" is not a race, most Texas users find it more meaningful to have this group broken out from Anglos. The "Other Races" group is very small, and their characteristics are more similar to the Anglo group than to any other.

Labor Force Estimates for the SDA's are shown for 1980 through August 1990. Data for component counties are available upon request.

Annual Average Covered Employment, the number of people employed in firms covered by the Texas Unemployment Compensation Act, is given for each SDA for 1987, 1988, and 1989. Data for the first quarter of 1990 are also included. After the first of January, data for the second quarter will be available and will be furnished to interested parties upon request. The introduction of the 1987 revision to the Standard Industrial Classification Manual changed some industry codes, particularly in Manufacturing, Finance, and Services. These changes make comparisons with years prior to 1988 difficult in some industries. In these cases, it is suggested that you look to major groups, since they were generally unaffected.

The quarterly publication, **Covered Employment and Wages by Industry and County**, contains similar information for all Texas counties and is available upon request.

Average Weekly Wage in Covered Employment is based on the aforementioned tabulation and is done by industry for the SDA. For the individual counties, the average weekly wage is computed only for total covered employment.

The ***3-Digit Distribution of 2-Digit Industries*** gives a better idea of the type of activity going on in the SDA.

Characteristics of the Insured Unemployed, current and a year ago, shows the number of claimants in each occupation and industry for the most current period compared with the same time last year. Copies of the current reports for the individual counties may give further information on conditions within each SDA.

The most recent data on ***Per Capita Income*** (for 1988) for the counties in each SDA from the Bureau of Economic Analysis of the U. S. Department of Commerce are furnished, with a comparison to 1987 figures. Multi-county MSA income data are also shown.

Estimates of the ***Poverty Population for 1990*** by SDA have been generated by TEC. These estimates were produced by applying ratios developed by the Texas Department of Human Services between the poverty population and the total population for 1988 for each county. These ratios were then applied to total population estimates for 1990 from the Texas Department of Rural Sociology, Texas A&M, to derive a poverty population estimate for each county. The county figures were aggregated into SDA totals.

The Texas Department of Human Services supplied data on ***Aid to Families with Dependent Children*** by county, from which the SDA totals were aggregated.

If you need other information in planning for your 1991-1992 Program Year, please feel free to contact the ERA Department of TEC at (512) 463-2841.

NOTE: Data for 1988 are not strictly comparable to prior years' data due to the 1987 SIC Code restructuring. Among those industries primarily affected by these changes were: SIC's 30, 32, 36, 38, 60, 61, 66, 72, 73, 78, 79, 87 and 89. These changes occurred to varying degrees within different SIC's. The most obvious changes were in SIC 66 (which was deleted) and SIC 87 (which was newly-created).

SOURCE: Employment reported to TEC by all employers covered by the Texas Unemployment Compensation Act.

*Less than 3 firms in industry, or 2 firms have 80% of employment in industry.

Metropolitan areas are defined as urban places of 50,000 or more population. All jurisdictions within Metropolitan Statistical Areas (MSA's) regardless of size are considered metropolitan areas.

Non-metropolitan areas are defined as places with less than 50,000 persons which are outside MSA's.
